Notes on Field Contents

Each device should be characterized by one or more standard citations which identify it unambiguously. The standard citation identifies the figure of the device within pre-established bibliographic sources and consists of an alphabetic character identifying the repertory, and of numerical characters identifying the device within the repertory (number of the figure), e.g., Z534 (Z = Zappella; 534 = number of the device in the repertory). A device may have several standard citations because it may be present in one or more sources.
