

## 360 NOTE ON TIME-SPAN

### Field Definition and Scope

Information about the finite period of time recorded in the 270 field.

The field must be repeated for each reference to an external source in \$2.

### Subfields & Occurrence

Field/Subfield	Field/Subfield Name	Repeatability	Occurrence
360	NOTE ON TIME-SPAN	R	O
a	General Information Note	R	O
b	Category of Time-Span	R	O
2	Source	NR	O
6	Interfield Linking Data	NR	O
7	Script of Cataloguing and Script of the Base Access Point	NR	O
R	Real World Object URI	R	O

### Indicators

Indicator	Value	Description
1	#	blank (not defined)
2	#	blank (not defined)

### Subfields Description

#### \$a General Information Note

A note providing information on a time-span or event.

Repeatable.

#### \$b Category of Time-Span

A term specifying the category to which a time-span belongs.

If a controlled vocabulary is used, subfield \$2 should follow. (EX [2](#), [3](#)).

Repeatable.

#### \$2 Source

See specification of [Control Subfield 2](#). Not repeatable.

#### \$6 Interfield Linking Data

See specification of [Control Subfield 6](#). Not repeatable.

#### \$7 Script of Cataloguing and Script of the Base Access Point

See specification of [Control Subfield 7](#). Not repeatable.

#### \$R Real World Object URI

See specification of [Control Subfield 3](#). Repeatable.
