Subfields Description

\$a Entry Element

The geographical name in the form prescribed by the system of authority access points used. Not repeatable.

\$j Form Subdivision

A term added to the subject access point to further specify the kind(s) or genre(s) of material. Agencies not using this subdivision should use \$x instead. Repeatable.

\$x Topical Subdivision

A term added to the geographical name to specify the aspect that the subject access point represents. Repeatable.

\$y Geographical Subdivision

A term added to the geographical name to further specify a place that the subject access point represents. Repeatable.

\$z Chronological Subdivision

A term added to the geographical name to specify the period in time in relation to the name that the subject access point represents. Repeatable.

\$2 Source

Identification in coded form of the system from which the subject access point is derived.

It is recommended that subfield \$2 always be present in each occurrence of the field. For a list of system codes, see UNIMARC/Bibliographic format, Appendix A. Not repeatable.

See also specification of [Control Subfield 2](#).

\$3 Authority Record Identifier or Standard Number

The control number for the authority record for the geographical name for which a subject access point is established in the record for a work. Repeatable when it is necessary for more than one authority record number to indicate each part of an access point where the indexing system uses a pre-coordinate syntax.

See also specification of [Control Subfield 3](#).

\$R Real World Object URI

See specification of [Control Subfield 3](#). Repeatable.
