

## 631 SUBJECT ACCESS POINT – TITLE (WORK)

### Field Definition and Scope

Title access point for a work which is one of the subjects of the work for which the record is established.

Field includes the title of a work in any form of medium, e.g. stage plays, radio programmes, etc.

This field will normally contain an authorized access point for a uniform title, since most other titles assigned as subjects will be treated using 641 or 642. Any anonymous work which is the subject of the work for which the record is established will be entered here. Further information and examples on the contents of subfields for authorized access point for uniform titles are found at field 231 and 232. A title proper which is to be entered in this field should be entered in subfield \$a including in that subfield any other title information as necessary. Field 631 is structured like field 231.

This field has been designed for catalogues that comply with the FRBR/IFLA LRM model for work.
