

017 OTHER STANDARD IDENTIFIER

Field Definition

This field contains a standard number or code, published on an item which cannot be accommodated in another field and a qualification which distinguishes between numbers when more than one number of the same type is contained in a record. The field corresponds to the ISBD Standard Number (or Alternative) and Terms of Availability Area. The field may contain the terms of availability and/or price, even if it does not contain a number.

Occurrence

Optional. Repeatable with different first indicator values when more than one type of standard identifier is used; repeatable with the same first indicator value when more than one instance of a specific type of standard number is to be recorded.

Indicators

Indicator 1: Type of standard number or code

- 7 Source Specified in Subfield \$2
- 8 Unspecified type of standard number

Indicator 2: Difference indicator

The second indicator position contains a value that indicates whether there is a difference between a scanned number or code and the same number or code in eye readable form.
