

447 MERGED WITH ... AND ... TO FORM ...

The specifications below are in addition to those given at the beginning of the block under 4--STRUCTURE OF LINKING ENTRY FIELDS

Field Definition

This field is used to link the continuing resource being catalogued to other continuing resources with which it merged and to an item which was the product of the merger.

Occurrence

Optional. This field must be repeated. The final occurrence of the field relates to the product of the merger; all other occurrences relate to items with which the item being catalogued is merged.

Related Fields

434 ABSORBED

When the continuing resource being catalogued is merged with one or more others to form a new continuing resource which bears the same title as the continuing resource being catalogued, the record of the item being catalogued will contain a 434 field referring to each of the titles which is absorbed and field 447 will not be used.

444 ABSORBED BY

When the continuing resource being catalogued is merged with one or more others to form a new continuing resource which bears the same title as one of the other continuing resources, the record of the item being catalogued will contain a 444 field referring to the title which continues, and field 447 will not be used.
