

## 512 COVER TITLE

### Field Definition

This field contains the title appearing on the cover of the item when it differs sufficiently from the title proper in field 200 to warrant recording as a note or as an access point.

### Occurrence

Optional. Repeatable.

### Indicators

Indicator 1: Title Significance Indicator

Specifies whether the cover title should be treated as an independent title access point, i.e. whether an access point (or added entry) should be made for it.

0 Cover title is not significant

It is not intended that an access point be made under the cover title.

1 Cover title is significant

An access point should be made under this title.

Indicator 2: blank (not defined)

### Subfields

Any subfield available under field 510 may be used. It is anticipated that only the following will usually occur:

\$a Cover Title

The title as on the cover of the item without any other title information or statement of responsibility. Not repeatable.

\$e Other Title Information

Subtitles and other title information that appear on the cover subordinate to the cover title in \$a. Repeatable.

### Notes on Field Contents

This field will be used only when the cover title differs significantly from the title proper.

### Related Fields

312 NOTES PERTAINING TO RELATED TITLES (OF THE SAME WORK)

A note containing the text of the cover title may alternatively be entered in field 312.

**Examples**

EX 1: 512 l#s\$aWoods and trees of the Amazon basin

The title from the title page of a book is *Woods of the Amazon basin*. The title on the cover is *Woods and trees of the Amazon basin*, which is required as an access point.

EX 2: 512 l#s\$aCity of Coventry archaeology and development\$n(paperback version)

*Coventry archaeology and redevelopment* is published in hardback and in paperback and the record includes data on both. The cover title on the paperback version only is *City of Coventry archaeology and development*. The following display is made by the cataloguing agency from the 512 data:

Cover title: City of Coventry archaeology and development (paperback version)

EX 3: 512 l#s\$aChemical age yearbook\$n(varies slightly)\$j1957-

From 1957 to date the continuing resource has had a cover title *Chemical age yearbook* although it varies slightly.
