\$b Part of Name Other than Entry Element

The remainder of the name, used when the entry element is a surname or family name (EX 1, 2, 5). It contains forenames and other given names. The form of name indicator should be set to 1 when this subfield is used. Not repeatable.

\$d Roman Numerals

Notes on Field Contents

This field is intended for recording headings for personal names used as subjects. These headings are structured in the same form as the headings for persons responsible for the content of an item. Subfields \$a, \$b, \$c, \$d and \$f follow the same form as in field 700 and further explanation of the scope and content of these subfields can be found there.

Unlike field 700, this field can contain more than the name of the person and additions to the name. Terms may be added to a subject heading to further specify it with respect to form, topic, place or time. These and the order of all the subfields follow the rules of the subject heading system or thesaurus used by the agency preparing the record.
