Notes on Field Contents

This field is used for headings which are constructed to bring together works of a particular type which are not regarded by the cataloguing rules as having an author. These works are entered under type and divided by subject. The field is not used in any item which is regarded as having a corporate author by the cataloguing code under which it is being catalogued. Thus it is not used for laws and treaties entered under the name of a territorial authority.

Related Fields

500 PREFERRED ACCESS POINT	Preferred titles are related to preferred conventional headings, but the entry element of a preferred title is always based on a title of a work, whereas the form heading proper is a term rather than a title.
501 CONVENTIONAL PREFERRED TITLE	Conventional preferred titles are used to group together works by a prolific author.
