Field Definition and Scope

This field is used to link the resource being catalogued to another bibliographic resource that is issued with it.

The specifications below are in addition to those given at the block under 4-- LINKING ENTRY BLOCK.

Notes on Field Contents

When one resource is issued with another, it is not implied that either resource is subsidiary to the other, as is the case with a supplement/parent relationship.

Related Fields

482 BOUND WITH	This field contains a description of the resource that is bound first in an “artificial” collection, i.e. not found with the other resources as issued.
