#### \$r Part or Role Played

The name of a role interpreted, played or sung by the corporate body designed by the access point. This subfield is especially used in records for audiovisual material (motion pictures, sound or video recordings

of theatre plays or operas or other vocal works). It is used when \$4 is present and contains values such as “275” (Dancer), “721” (Singer), etc. Repeatable.

## **\$2 Source**

## **\$3 Authority Record Identifier or Standard Number**

The identifier for the authority record for the access point. This subfield is for use with UNIMARC/Authorities format. Not repeatable.

## **\$4 Relator Code**

A code used to designate the relationship between the person named in the field and the bibliographic item to which the record refers.

Relator codes can be either numerical or alphabetical. The list of numerical codes is to be found in [Appendix B](#). If greater precision is required for performers, a list of alphabetical codes is found at the end of field 146. An agency requiring greater precision should use the numeric code followed by the more specific alphabetic code in a repeated subfield. If another system is used, \$4 can be used to carry other codes, followed by \$2. Repeatable.

## **\$5 Institution to which the Field Applies**

Name of the institution to which field applies in the coded form if it is considered necessary by the agency which creates the record to identify specific attributes of an item.

If the subfield is used codes should be entered in accordance with the provisions of International Standard Identifier for Libraries and Related Organizations (ISIL), [ISO 15511](#) or may contain codes from [MARC Code List for Organizations](#), otherwise, the full name of the agency or a national code may be used.

If the institution holds more than one copy the shelfmark of the item should be added after a colon. Not repeatable.

## **\$8 Materials Specified**

Part of the described materials to which the field applies. Repeatable.

## **Notes on Field Contents**

Subfield \$5, Institution to which the Field Applies, is used only when the added entry/ies are applied to a specific item. It is generally used for older monographic publications (antiquarian).

The form of the data in the examples under field 720 applies equally here.

## **Form of Name**

The form of name which appears in the field is determined by the appropriate cataloguing rules and/or authorities used by the agency responsible for the preparation of the record.

Subfield \$a includes the name of the family. Qualifying data are recorded in \$c, \$d and \$f.

## **Punctuation**

There are no standards for punctuation in this field. However, it is recommended that punctuation be retained where it is available in the source format. If the source format uses additional subfields it is recommended that punctuation be printed out by an algorithm generated from the definition of the additional subfields. Because there are no standards for punctuation in this field, recipients of records in the UNIMARC format will have to be aware of the practices adopted by the agency preparing the record. Agencies distributing records should attempt to be consistent in their own records.
